## Press release

KWC DOMO E – stainless steel and perfect hygiene for the kitchen

KWC DOMO E in stainless steel – the ultimate tool for your kitchen

**KWC DOMO E is the ideal material for kitchens – stainless steel. Stainless steel is material through and through and thanks to its unequalled antibacterial properties, is entirely hygienic. This means that bacteria cannot settle even on components with which we make regular contact since the material has a less adhesive surface. Stainless steel is resistant to external influences and the smooth, clean surface is durable, scratch- and abrasion-resistant and easy to clean. It is the perfect material for the kitchen's most intensively used working area – the sink/food preparation centre.**

- Hygienic
- Easy to maintain in the long-term
- Largely scratch-free
- Stainless
- Smart, neutral aesthetics suitable for all styles
- Exceeds the requirements of the Drinking Water Ordinance
- 100% pure material

#### **KWC Group Ltd.**
