

KWC F5E Urinal flush valve for concealed mounting

Modell-Linie: F5E | F5EF3002
Flushing systems | Electronic urinal flushing systems

KWC-No.

2030062317

F5E Urinal flush valve DN 15 for concealed mounting, opto-electronic control. With round sensor (diameter 55 mm), with integrated control electronics and deactivation of cleaning, high-polished chrome-plated brass, to be screwed in from rear, with anti-twist protection, solenoid valve with screw fixings G 1/2 B, extension cable for solenoid valve, length 5 m. Activated water hygiene flushing 24 hours after last activation and saving of statistical data. With option for parameterization and communication via optional,

bidirectional remote control. Optional for battery operation with 6 V lithium battery (CR-P2) per fitting or separate power supply via power supply unit 6.75 V/12 V DC or AQUA 3000 open system accessories.

Battery compartment including battery or power supply unit with extension cable must be ordered separately.
