

KWC F4LT-Med

Thermostatic single-lever wall-mounted mixer with hand shower connection

Modell-Linie: F4 | F4LT2003
Showers | Manual shower

KWC-No.

2030066757

F4LT-Med thermostatic single lever mixer as DN 15 wall-mounted mixer for wall mounting, for shower facilities in the healthcare and nursing sectors, with 118 mm lever. Thermostat-controlled mixer cartridge with expansion element and active scald protection, fail-safe against backflow as well as adjustable and turn-proof temperature stop, and ceramic disc technology. Without additional backflow preventer for optimised drinking water hygiene. Lever cap with an ergonomic bracket design and slight curvature in the front with basalt-grey coating, in line with two-senses principle (tactile

and visual). For connection to hot and cold water. Tap optimised for cleaning, scald-protected, safe-touch housing with hand shower connection, G 1/2 B. All-metal construction, polished chromium-plated brass. Decoupled from the tap housing, volume-reduced, smooth water flow from low-lead brass (lead proportion $\leq 0,2\%$), and without nickel coating. With thermal insulation components to reduce heat transfer from the tap housing to the cold-water line. With adjustable and lockable connections with strainers, fully covered by depth-adjustable screw rosettes.
